

QUALITY POLICY

We shall deliver sustainable products and services that exceed customer expectations through advanced functions and simple solutions in electronics and mechanics, with traffic safety in focus for today's and future generations.

WE SHALL

- Continually improve our ways of working and leading to ensure high quality and efficiency in our processes.
- Ensure that we meet all applicable requirements, including customer, legal, and regulatory requirements.
- Work proactively with innovation and adaptation to changes in the external environment.
- Develop long-term collaborations with customers and suppliers to strengthen quality throughout the entire value chain.
- Ensure that our company culture promotes quality awareness and engagement among all employees.

GOALS

- Measure and analyse customer complaints, supplier complaints, and internal deviations to identify areas for improvement.
- Develop and implement actions based on the analysis of quality data.
- Ensure that quality objectives are established, communicated, and regularly revised to drive improvements.

RESPONSIBILITY

Company management is responsible for ensuring that the policy is followed, communicated, and integrated into the operations.

All employees share a collective responsibility to act in accordance with the policy and contribute to the company's quality work.
